

SWITCH TO A BETTER WORLD

Set the new trend

SWITCHES &
ACCESSORIES

PRICELIST#Edition JUNE 2024

AWARDED BRAND
OF THE YEAR
2024-25

The Company

In 2002, the organisation decided on an objective to make things easier and life simpler. GM believes that the hardworking world deserves a less complex life, and the human struggles need to decrease through simple access to automation.

GM has redefined switch manufacturing in India. From switches to home automation, for more than two decades we have been catering 'better lives' to our customers across the country. By introducing innovation, GM incorporates advanced and imaginative products that have transformed people's lives tremendously. At GM, we believe in constant innovation and we are the market leaders in switches and accessories.

We have made space for good technology for every home by introducing some revolutionary products like new generation switches, home automation, Bluetooth music players, home security products, switchgears and brilliant contemporary range in LED lighting and luminaires.

Our innovations are the result of a strong research & development team, which is further complemented by an equally dedicated, and capable product design team. Our state-of-the-art manufacturing facilities are spread around 3 lakh square feet with the most efficient and high-grade machinery that produces the finest quality products carrying the GM logo.

Welcome to the most luxurious experience

I was always fascinated by GM's idea of luxury and therefore this successful association. Luxury is one brilliant idea. That one idea that further helps in creating functional products. GM understands how important experiences are, and that is what we inculcate in our designs. CUBA is about classic timeless forms to unconventional designs, and we find inspiration from everything.

Being GM's brand ambassador, I believe that luxury is that state of mind where experiences aid in creating the right mindset. GM's motive of offering convenience to a million, got my instant consent of collaboration. Moreover, with our passion towards our work, the excellence in creating products of exceptional quality, I can relate with my belief of giving it my all for that one perfect shot.

With all my heart, I welcome you to have the most luxurious GM experience.

Suniel Shetty
(Brand Ambassador)

red**dot** design award 2023

Design concept

GM has been honoured with the prestigious Red Dot Award, 2023.

The Red Dot Award represents excellence in design and innovation, values that have always been at the core of our work at GM. Awarded for a path-breaking product that is an epitome of technological innovation and meticulous craftsmanship; the achievement is a testament to the collective efforts of talented teams at GM.

We at GM look forward to continue innovating and crafting more such products that would set newer benchmarks in the design and innovation industry.

Awarded the Red Dot Award, 2024-25 for Product Design

reddot design award Product design

GM has been honoured with the prestigious Red Dot Award in 2024-25 for the second time in a row. The Red Dot Award, which represents excellence in design and innovation, has been bestowed upon us for the Best Product Design. This achievement is a testament to the collective efforts of talented teams at GM and a promise to set newer canons in the design and innovation industry.

A man in a plaid shirt and glasses is pointing at a presentation board in a modern office. The board displays various electrical products. The background features large windows and a circular light fixture on the ceiling.

Setting the trend

While Cuba switches shift angles effortlessly, they are always on your side when it comes to your preferences. With their dramatic cuts and moulds, they add unique character to your interiors. They become an intrinsic part of your home with their comforting switching qualities and graceful exterior, thus setting the trend of granting interiors a flavour of individuality.

UPGRADING THE BASICS

Everyone enjoys personalising items to their choices and requirements. And the good news is, technology can now be tailored to your preferences. The GM Power Tracks allow manual installation of a variety of electrical components, which simplify daily operations. The tracks can be efficiently installed on long tables at homes or offices or even on the walls, making them appropriate for both residential and commercial sectors. They facilitate work and astound with their simple yet intelligent design.

THE ULTIMATE BREEZY COMFORT

Introducing the unique Aero 360 Ceiling Fan, which features a special LED speed indicator on the base. The novel indicator displays air speed and is visually appealing, adding a modern touch to interiors. The aerodynamic blades are perfectly designed to provide a cool wind and a relaxing experience, while saving high energy costs.

AERO 360
PREMIUM CEILING FAN

THE MODERN HOT WATER SOLUTION

Made for Modern Homes: The GM R1X Water Heater provides hot water quickly and efficiently. The body is made with durable material that is anti-corrosive and resistant to scale deposition. Features such as water temperature indicator and temperature control minimise power consumption and make it simple to operate, providing a convenient experience.

R1X WATER HEATER

WIDER, FASTER, EASIER

The most powerful iron, Orca ensures smooth ironing with its non-stick, dual-layer coated, wider soleplate for fast ironing. With a reverse-glide friendly design, it ensures an easy ironing experience. Here's the perfect household iron for all fabric types.

ORCA DESIGNER DRY IRON

REVOLUTIONARY COMFORT WRAPPED IN A BLADELESS INNOVATION

The Oxy Air Signature Series Bladeless Fan comes with a suspended air purifier containing a HEPA filter. With a built-in air quality sensor, 120° oscillation, 30° tilt angle, UV sterilisation, room temperature humidity value display, smart control, off timer, nine speed levels, and low noise, Oxy Air is a revolutionary fan in an elegant tripod shape.

OXY AIR BLADELESS FAN + SUSPENDED AIR PURIFIER

Notes

To make a better world, make life simpler.

It is what we strongly believe in. It is not just about innovating products, it's about everything we do that affects people and environment around us. We find us responsible to do things differently and in a better way. These are few initiatives we have already set into motion.

CLIMATE IMPACT

GM Modular supports the Climate Impact cause.

We want to help carve a better cleaner world and that is why we started a strategic policy initiative.

We are committed to align operations and strategies with environment friendly principles.

RECYCLE

We constantly find ways to make more out of less.

That is why we try our best to use a recyclable resource.

From tiny metal pieces to whatever that can harm the environment in reproducing, we reuse it.

LESS TRANSPORT

We have regional distribution centres spread across the country. In order to reduce the distance that our products have to travel to reach our customers, we have distribution centres with our channel partners to cut down on the transportation distance that helps curb CO2 emissions.

BETTER HOME ENVIRONMENT

A good home environment is important for your health and well-being. It is not only the ventilation and construction materials, but also the things you have inside, that influence the indoor environment of your home. GM refrains from using any harmful raw material that may cause unhealthy circumstances to life.

CERTIFIED

To help consumers make qualified decisions in choosing products that contribute to a healthy lifestyle, GM products have received safety certifications from around the world, as they have been tested thoroughly with regards to their functioning.

Harmonising design and technology

The GM product range sets standards in design, function and technique. GM offers high-quality design, attractive colours and numerous intelligent functions with switches and automation.

Our intent is to raise the quality of life and therefore, all products are designed to harmonize perfectly, with each other. From switches to socket outlets, from music technology to home automation, the use of GM products is not only attractive, but also convincingly comfortable. Having clear operating instructions in our packaging with the most important technical data assists in the safe and faultless installation of every GM product.
